SOUTH AUSTRALIAN HARBOURS BOARD.

LIFE-SAVING SERVICE.—Telephone No. 2323, Port Adelaide.

ALL persons in the employ of the Government are required by regulation immediately on learning that any wreck or marine casualty has occurred, to communicate the intelligence of the same to the Superintendent of Life-Saving Service at the Harbors Board Deepening Works, Port Adelaide, and to render aid and assistance in case of a marine disaster if called upon to do so by any responsible officer in charge of a life-saving crew, a Marine or Harbours Board officer, or officer of police.

ARTHUR SARBY,
Chairman of the Harbours Board, President of the Marine Board, and Superintendent Life-Saving Service.

NOTICE TO MARINERS.

South Australia.—No. 7 of 1920.—West Coast, Denial Bay.—Cape Thévenard Jetty.

THE attention of masters of vessels, pilots, and others is directed to the following particulars affecting Cape Thévenard Jetty:

Sailing Directions.

Vessels of over 12ft. draught, bound for Cape Thévenard Harbor must enter by the western entrance known as the Yatala channel, on the north-west side of St. Peter’s Island, to which channel the following directions refer:

Appraoching from the south-westward during daylight, when No. 1 beacon is sighted a course should be set to pass not less than half a cable to the south-eastward of it, and when abreast steer to pass No. 2 beacon on the starboard hand about one cable distant. When past No. 2 steer for just to the northward of No. 4 so as to give as much room as possible for turning short off to port into the straight dredged channel. Nos. 5, 6, and 7 are placed about 40ft. from the western edge of the cutting, therefore must not be approached any closer than that distance. Nos. 3 and 4 beacons in line astern will lead along the centre of the channel which is at present 150ft. wide, but it is intended at an early date to widen it to 260ft. Its depth is 24ft. at L.W.T. The flood tide
sets across the dredged channel in a north-easterly direction, and the ebb to south-west, but only with slight velocity, probably under a half a knot.

Passing outwards the directions are the opposite to the above.

When entering after dark, by keeping in the white sectors of Nos. 1 and 2 it will be seen that a vessel is in the channel, and when approaching Nos. 4 and 5, then 4 commences to show red and 5 shows green, the turn to port should be commenced.

Notes.—The beacons and lights are in course of erection. Vessels using the Cape Thevenard Jetty are recommended to moor head to the westward.

For convenience in berthing vessels, two warping buoys are being placed one off the north-west corner, and one off the south-west corner of the jetty, and about 250 ft. distant from it. These buoys are being placed on the edge of the dredged channel which they also mark.

Pilotage.

Pilotage is not compulsory, but, if required, a pilot may be obtained by prior arrangement or in answer to a flag signal from the arriving vessel when outside No. 1 beacon.

Lights.

A light of a powerful order for landfall purposes will shortly be established on the highest point of St. Francis Island, also a subsidiary light on Leda Island, also a subsidiary light on Leda Island, also a subsidiary light on the edge of the jetty—

Latitude 32° 9′ 4″ S.; longitude 139° 39′ E.

This affects Admiralty charts Nos. 1061 and 2759A, and Australia Pilot, vol. I, page 108.

ARTHUR SARGENT, Chairman S.A. Harbors Board, and President of the Marine Board of S.A.

No. 4 of 1921.—Gulf St. Vincent.—Port Noarlunga.

MATeRS of vessels, pilots, and others are hereby informed that the fairway of the middle channel is now marked by two square black beacons placed on the sandhills; these kept in line bearing 76° true (N. 71° E. mag.) lead across the bar and into the harbor in 4½ to 5 fathoms water.

The beacons which marked the north and south channels have disappeared, and will not be replaced.

Approximate position middle channel—Lat. 35° 9′ 9″ S., long. 139° 28′ E.

REFERRING to Notices to Mariners No. 21 of 1912, No. 7 of 1913, and No. 7 of 1920, masters of vessels, pilots, and others are hereby informed that on or about the night of June 13th, 1921, the light on Bird Rock, Yatala Channel, will be discontinued, and the approach to Cape Thevenard will be lighted by seven "A.G.A." beacon lights described below as for vessels bound inwards.

The light is an "A.G.A." flashing white light with a red sector, flashing 60 times per minute, its focal plane being 23 ft. above high water. The red sector shows through an arc of 36° at the rate of 40 per minute, and covers the shallow waters between No. 1 light and Cape Beaufort. The white light shows through an arc of 186°, and indicates the navigable waters of Yatala Channel and its approach. In ordinary clear weather the white light will be visible for nine miles.

The light is an "A.G.A." flashing white light with a red sector, flashing 60 times per minute, with its focal plane 23 ft. above high water. The red sector shows through an arc of 186° and covers the shallow waters from the entrance to the entrance to the southward. The white light showing through an arc of 225° indicates the navigable waters of Yatala Channel.

No. 3 beacon (leading) about nine cables S.E. by S. from Bird Rock in one fathom water—the beacon consists of a mast 16 ft. high on a cluster of piles with an inverted white quadrant painted with red on all the sides, the quadrant being fixed to top under light. The light is an "A.G.A." flashing white light giving 120 flashes per minute over an arc of 10°, its focal plane being 28 ft. above high water.

No. 4 beacon (front leading) is about one and half cables northerly from No. 3 in two and a half fathoms water. The beacon consists of an open lattice tower 7½ ft. high fixed on piles, and on which is a tri-colored white sector giving 60 flashes per minute; its focal plane being 19 ft. above high water. The red sector is of 10°, and shows northerly along the dredged channel. Two white sectors, each showing respectively a-westerly and westerly, and indicate the navigable waters of Yatala Channel.

N.B.—The red light of the front leading beacon (No. 4) kept in line with the white light of back leading beacon (No. 3) will lead along centre of dredged channel on a bearing of the 32° 20′ E. Mag., when the channel is completed to its full width of 250 ft. Pending completion of channel No. 3 and 4 in line lead along channel 125 ft. from its western side, and 25 ft. from its present eastern side.

No. 5 beacon is about four cables northerly from No. 4 in two fathoms of water, on the port hand, 30 ft. west from the edge of the dredged channel the entrance to which it marks. The beacon consists of an open lattice tower 7½ ft. high and fixed on piles. The light is an "A.G.A." flashing green light giving 60 flashes per minute at an elevation of 19 ft. above high water, and shows as a port hand channel side light through an arc of 207°, being obscured to the westward.

No. 6 beacon is nine and a half cables northerly from No. 5, 30 ft. from edge of channel, on port hand, is about two and a half fathoms water. The light is an "A.G.A." flashing green light giving 60 flashes per minute at an elevation of 19 ft. above high water, and shows through an arc of 180°, being obscured to the westward.

In every other respect the beacon is similar to No. 5.

No. 7 beacon is about five and a half cables W.S.W. from Cape Thevenard in four and a half fathoms of water on the port hand, and in line with Nos. 5 and 6. The beacon is the same as described for No. 5. The light is an "A.G.A." flashing white light giving 69 flashes per minute at an elevation of 19 ft. above high water with a red sector. The white shows through an arc of 270° from the line of No. 5 and 6 and round by east and north to westward, indicating the navigable waters of the dredged channel, Cape Thevenard and Murat Bay.

The red sector of No. 6 shows over the shoals to the northward. The white light will be visible for about one mile to the westward of the buoy marking the dangers off Cape Elizabeth, and are cautioned to keep a good lookout when navigating the vicinity.

The position of the wreck is marked by a white light shown through the night by a wh. wh. light shown therefrom. This notice affects Admiralty Chart No. 2389.

All premiums payable in respect of the policy of such insurance shall be paid by the Minister, and the amount thereof shall be a debt due to the Minister from the lessee. In default of payment by the lessee, the amount so paid by the Minister for such insurance shall be recoverable by the Minister in like manner as the rent is recoverable:

(e) To stock the land leased with sheep in the proportion of at least five head or with cattle in the proportion of at least one head for every square mile leased, and to keep the same so stocked, and before the end of the seventh year to increase the stocking to at least 20 head of sheep or four head of cattle per square mile, and to keep the same so stocked during the remainder of the term, and so that the stocking with sheep and cattle combined shall be sufficient if the requisite number are kept, one head of cattle being computed as equal to five head of sheep; and in all cases, upon being required thereunto, to furnish the Commissioner and the Pastoral Board with true particulars of the number of sheep and cattle with which the leased land is stocked:

(f) That the lessee will not at any time during the last three years of the term of the lease, overstock the land or any part thereof, or keep thereon any excessive number of sheep, cattle, horses, or other stock, which, in the opinion of the Commissioner or the Pastoral Board, would have the effect of depriving the ordinary capacity of the land for depasturing stock:

(g) To forthwith commence to destroy and keep the land free of vermin, to the satisfaction of the Commissioner or the Pastoral Board, during the currency of the lease:

(h) The lessee shall not transfer, assign, sublet, encumber, or mortgage his interest in the lease without the consent in writing of the Minister first had in each case, and such consent may be given upon and subject to such terms and conditions as the Minister determines. Except in the case of disabling accident or sickness, or death, the Minister shall not consent within a period of ten years from the date of the lease to any such transfer or assignment to any person other than a discharged soldier, or the widow, child, or other dependant of a discharged soldier:

(i) Not to erect or suffer brush fences on the land leased:

(j) Not to cut timber, except for erections, fencing or firewood, without the licence of the Commissioner:

(k) Not to obstruct or interfere with any public roads, paths, or ways, or the use thereof by any person:

(l) To make and furnish all such statements and returns as may be required by any rule or law for the time being in force:

(m) To observe and comply with the regulations for the time being in force under the Acts relating to pastoral lands:

(n) An exception or reservation in favor of the Crown, and all persons authorised, of all minerals, metals, gems, precious stones, coal, and mineral oils, together with all necessary rights of access, search, procurement and removal, and all incidental rights and powers:

(o) An unrestricted right for the Crown and all persons authorised to enter and view the demised premises, and view the state and condition thereof, and to serve notice on the lessee of any wants of reparation, etc.:

(p) An unrestricted right for the Pastoral Board, land boards, and the agents therefor respectively, to enter upon and examine the demised land and premises:

B
(q) A condition that, if rent be not paid on due date, then a penalty of 10 per cent. per annum on the amount of the rent unpaid may, if the Commissioner think fit, be added:

(r) A proviso that if rent shall be in arrear for more than three months after due date, or if there has been a breach or non-performance of any of the lessee's covenants or conditions, the Commissioner may cancel the lease subject to the provisions of the Act:

(s) Provisions for the re-valuation or resumption of the demised land or premises, or any part thereof, for increasing the rent upon re-valuation and for compensation of the lessee on resumption, in accordance with the Acts and regulations for the time being on that behalf.

(t) Such leases shall also contain all such exceptions and reservations in favor of the Crown, the Commissioner, the Pastoral Board, land boards, road boards, and other authorities, the aborigines of the State, and other persons necessary or proper for giving effect to any Act or regulation for the time being in force or not inconsistent therewith, as may be prescribed, or as the Commissioner may require:

(u) To expend in improvements on the land such sum, not exceeding 10s. per mile per annum, as shall be recommended by the Pastoral Board, approved by the Commissioner, and fixed by the lease: Provided that such covenant shall cease so soon as there shall be at least 2¢ per mile value in improvements on the land.

(v) The lessee will be liable for any amounts due on account of wire netting, vermin rates, or wild dog rates:

(w) The lessee may at any time surrender his lease upon and subject to such terms and conditions as the Minister determines:

(x) If at any time within a period of 10 years from the date of the lease the Minister is satisfied, on such evidence as he deems sufficient, that by reason of incompetency or personal disability the lessee is incapable of managing the land comprised in the lease with advantage to himself, or that the lessee has neglected to work the land satisfactorily, or has been guilty of serious misconduct during his occupation thereof, the Minister may determine the lease upon and subject to such terms and conditions as the Minister determines:

The lessee upon receiving notice of the determination of his lease by the Minister under the provisions of this subdivision, may apply for relief, in manner prescribed by the Pastoral Act, 1904, or the regulations made thereunder, in the case of forfeiture of the lease, to the Tenants' Relief Board constituted under that Act, and all the provisions of that Act, mutatis mutandis, shall apply with respect to such application:

(y) In the case of any surrender by the lessee with the consent of the Minister, or in the case of a determination of the lease by the Minister, if the Minister is of opinion that the improvements made by the lessee in respect of the land comprised in the lease are of greater value than the total amount of all moneys payable by him to the Minister in respect of the advances he has received from the Minister under the Discharged Soldiers Settlement Acts, 1917 to 1919, in respect of the land and in respect of the lease so surrendered or determined, the Minister may, if he thinks fit, pay to the lessee the difference between the value of the improvements so made, as estimated by the Minister, and the total amount of such moneys.

In these conditions "Minister" means Minister of Repatriation, and "Commissioner" means Commissioner of Crown Lands.

Geo. R. Laffer, Minister of Repatriation.

Interpretation.

In these regulations the terms in inverted commas shall have the meaning stated, except where some other meaning is clearly intended—

"Animal" means any swine, sheep, goats, or cattle which, when slaughtered, are ordinarily used as human food.

"Board" means the local board of health of the municipality of the town of Glenelg.

"Central Board" means the Central Board of Health.

"Glenelg-Marion slaughter-house" means the slaughter-house erected and built on the lands being portions of sections 184 and 185, in the hundred of Noarlunga, county of Adelaide.

"Meat" means the edible part of any animal in good health and condition at the time of slaughter generally used as human food properly dressed. If such meat bears a name descriptive of its kind, composition, or origin it shall correspond thereto.

1. No person shall slaughter within the district of the board any swine, sheep, goats, or cattle intended for sale as human food at any place other than at the Glenelg-Marion slaughter-house.
